

## Independent Auditor's Report

### To the Members of Emcure Pharmaceuticals Limited

### Report on the Audit of the Standalone Financial Statements

#### Opinion

We have audited the standalone financial statements of Emcure Pharmaceuticals Limited (the "Company") which comprise the standalone balance sheet as at 31 March 2024, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### Management's and Board of Directors Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

## Independent Auditor's Report (Continued)

### Emcure Pharmaceuticals Limited

#### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

**Annexure A to the Independent Auditor's Report on the Standalone Financial Statements of Emcure Pharmaceuticals Limited for the year ended 31 March 2024**

**(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of 3 years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee) disclosed in the standalone financial statements are held in the name of the Company.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory, except goods-in-transit, has been physically verified by the management during the year. For goods-in-transit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments in, provided security or granted any advances in the nature of loans to companies, firms, limited liability partnership or any other parties during the year. The Company has granted loan and provided guarantee to Companies during the year in respect of which the requisite information is as below.
- (a) Based on the audit procedures carried on by us and as per the information and explanations given to us the Company has provided loans or stood guarantee, to any other entity as below:

**Annexure A to the Independent Auditor's Report on the Standalone Financial Statements of Emcure Pharmaceuticals Limited for the year ended 31 March 2024 (Continued)**

Subsidiaries*	7,145.11	342.58
Others*	7,665.17	Nil

*\*As per the Companies Act, 2013*

- (b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the terms and conditions of the grant of loans and guarantees provided during the year are, prima facie, not prejudicial to the interest of the Company.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the loans given to subsidiaries viz. Emcure Pharma Philippines Inc & Emcure Pharma Chile SpA amounting to INR 24.57 million & INR 32.82 million respectively are repayable on demand. As informed to us, the Company has not demanded repayment of these loans during the year. Thus, there has been no default on the part of the party to whom the money has been lent. The payment of interest has been regular. Further, the Company has not given any advance in the nature of loan to any party during the year.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given, in our opinion the repayment of principal and payment of interest has been stipulated and the repayments or receipts have been regular except for the loan as reported in para iii (c) above. As informed to us, the Company has not demanded repayment of the loan during the year. Thus, there is no overdue amount for more than ninety days in respect of loans given. The payment of interest has been regular. Further, the Company has not given any advance in the nature of loan to any party during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to same parties.
- (f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment except for the following loans or advances in the nature of loans to its Promoters and related parties as defined in Clause (76) of Section 2 of the Companies Act, 2013 ("the Act"):

- (iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, in respect of investments made and loans, guarantees and security given by the Company, in our opinion the provisions of Section 185 and 186 of the Companies Act, 2013 ("the Act") have been complied with.
- (v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Act in respect of its manufactured goods and services provided by it and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not carried out a detailed examination of the records with a view to determine whether these are accurate or complete.
- (vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues have been regularly deposited by the Company with the appropriate authorities.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues were in arrears as at 31 March 2024 for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues which have not been deposited on account of any dispute are as follows:

**(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

**Opinion**

We have audited the internal financial controls with reference to financial statements of Emcure Pharmaceuticals Limited ("the Company") as of 31 March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

**Management's and Board of Directors' Responsibilities for Internal Financial Controls**

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

**Annexure B to the Independent Auditor's Report on the standalone financial statements of Emcure Pharmaceuticals Limited for the year ended 31 March 2024 (Continued)**

**Meaning of Internal Financial Controls with Reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with Reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's core strength lies in developing and manufacturing differentiated pharmaceutical products in-house, which are commercialised through Company's marketing infrastructure across geographies and business relationships with multi-national pharmaceutical companies.

**1B. Basis of preparation****a) Statement of compliance**

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013, (the 'Act') and other relevant provisions of the Act as amended from time to time.

Details of the Company's accounting policies are included in Note 1C. These policies have been consistently applied to all the years presented, unless otherwise stated.

**b) Functional and presentation currency**

The standalone financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All the amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest million, unless otherwise indicated.

**c) Basis of Measurement**

The standalone financial statements are prepared under the historical cost convention except for the following items:

Items	Measurement Basis
Investment in LLP	Fair value
Equity settled shared based payment options	Fair value
Assets held for sale	Fair value less cost to sell
Net defined benefit (asset) / liability	Fair value of plan assets less present value of defined benefit obligations

**d) Use of estimates and judgements**

In preparing these standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

### Notes to the standalone financial statements (continued)

For the year ended March 31, 2024

#### Assumptions and estimation uncertainties

Information about assumptions and estimations uncertainties that have a significant risk resulting in a material adjustment in the year ended 31 March 2024 is included in following notes:

Note 1C. c) Useful lives of property, plant, equipment;

Note 1C. d) Useful lives of intangible assets;

Note 3 - measurement of discount rate for initial recognition of ROU and Lease Liability as per IND AS 116

Note 5 - Impairment of investments in subsidiaries

Note 9 - Valuation of inventories

Note 19 & 22 - recognition and measurement of provisions and contingencies : key assumptions about the likelihood and magnitude of an outflow of resources;

Note 35 - recognition of deferred tax assets: availability of future taxable profit against which tax credit can be used;

Note 39 - Impairment of financial instruments

Note 43 - measurement of loans to related parties at amortised cost and interest accrued on these loans; key assumptions for discount rate

Note 44 - measurement of defined benefit obligations: key actuarial assumptions;

#### e) Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Head of Treasury.

The team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes;

- Note 40: Fair value measurements;
- Note 45: Employees stock option plan; and

**f) Current versus non current classification**

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non current classification of assets and liabilities.

All assets and liabilities are classified into current and non-current.

**Assets**

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held for the purpose of being traded;
- it is expected to be realized within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current assets / non-current financial assets. All other assets are classified as non-current.

**Liabilities**

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be settled within 12 months after the reporting date; or
- the Company does not have any unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Current liabilities include the current portion of non-current liabilities / non-current financial liabilities. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**Operating cycle**

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalent. The operating cycle of the Company is less than 12 months.

**1C. Material accounting policies**

**a) Foreign Currency Translation**

Transaction in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of transaction. Exchange difference are recognised in statement of profit and loss, except exchange differences arising from the translation of the following item which are recognised directly in other equity:

**1C. Material accounting policies (continued)**

**b) Financial instruments**

***i. Recognition and initial measurement***

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Trade receivables that do not contain a significant financing component are measured at transaction price.

***ii. Classification and subsequent measurement***

**Financial assets**

On initial recognition, a financial asset is classified as measured at

- amortised cost; or
- Fair value [either through profit and loss (FVTPL) or through other comprehensive income (FVOCI)]

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

***Financial assets: Business model assessment***

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- The stated policy and objectives for the portfolio and the operation of those policies in practice.  
These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial asset to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of asset;
- How the performance of portfolio is evaluated and reported to the Company's management;
- The risk that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How managers of business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- The frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

EMCURE PHARMACEUTICALS LIMITED

Notes to the standalone financial statements (continued)

For the year ended March 31, 2024

1C. Material accounting policies (continued)

b) Financial instruments (continued)

ii. Classification and subsequent measurement (continued)

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

**Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest**

For the purpose of this assessment, 'principal' is defined as the fair value of financial asset on initial recognition. 'Interest' is defined as consideration for time value of money and for credit risk associated with the principal amount outstanding during a particular period of time and other basic leading risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount and timing of cash flows;
- term that would adjust the contractual rate, including variable interest rate features;
- prepayment and extension features; and
- term that limits the Company's claim to cash flows for specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amount of principal and interest on principal amount outstanding, which may include reasonable additional compensation for early termination of contract. Additionally, for a financial asset acquired on a significant premium or discount to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is significant at initial recognition.

**Financial assets: Subsequent measurement and gains and losses**

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at FVOCI	These assets are subsequently measured at fair value. Fair value changes are recognised in other comprehensive income. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. When such asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income / expenses.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

1C. Material accounting policies (continued)

c) Property, plant and equipment (continued)

i. Recognition and measurement (continued)

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separated items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in the statement of profit and loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefit associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight line method, and is generally recognised in the statement of profit and loss. Freehold land is not depreciated.

Depreciation is provided on pro-rata basis using the straight-line method over the estimated useful lives of the assets prescribed under Schedule II to the Companies Act 2013 except for vehicles and furnitures and fixtures at leasehold premises. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Management estimated useful life	Useful life as per schedule II
Leasehold improvements	As per lease term	NA
Building	30 years	30 years
Plant and machinery	3 to 20 years	10 to 20 years
Electrical installation	10 years	10 years
Air handling equipment	15 years	15 years
Computers	3-6 years	3-6 years
Office equipment	5 years	5 years
Furniture and fixtures	10 years	10 years
Vehicles	5 years	8-10 years

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives represents the period over which the management expects to use these assets.

Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

**1C. Material accounting policies (continued)**

**d) Intangible assets**

**i. Initial recognition:**

Intangible assets are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses, if any.

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefit associated with the expenditure will flow to Company.

**iii. Amortisation**

Amortisation is calculated to write off the cost of intangible assets less their estimated residual value over their estimated useful lives using straight line method, as is included in depreciation and amortisation in statement of profit and loss.

The estimated useful lives are as follows:

Intangible Asset	Management estimated useful life
Brands acquired	5 to 10 years
Software, license rights	2 to 10 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

**iv. Intangible Assets under Development**

Intangible assets under development are initially recognized at cost. Such intangible assets are subsequently capitalized only if it is probable that the future economic benefit associated with the expenditure will flow to the Company.

**v. Impairment**

The Company irrespective of whether there is any indication of impairment, tests an intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. The recoverable amount is the higher of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is recognised if the carrying amount of the intangible asset not yet available for use exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss.

**e) Inventories**

Inventories are measured at the lower of cost and net realisable value. The cost on inventories is based on weighted average formula, and includes expenditure incurred in acquiring the inventories, production or conversion cost and other cost incurred in bringing them to their present location and condition. In case of manufactured inventory and work-in-progress, cost includes an appropriate share of fixed production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expense.

The net realisable value of work-in-progress is determined with reference to the selling price of related finished products.

**1C. Material accounting policies (continued)**

**e) Inventories (continued)**

Raw materials, components and other supplies held for use in production of finished products are not written down below cost except in cases where material price have declined and it is estimated that the cost of finished products will exceed their net realizable value.

The comparison of cost and net realizable value is made on an item-by-item basis.

The Company considers various factors like shelf life, ageing of inventory, product discontinuation, price changes and any other factor which impact the Company's business in determining the allowance for obsolete, non-saleable and slow moving inventories. The Company considers the above factors and adjusts the inventory provision to reflect its actual experience on a periodic basis.

**f) Impairment**

**i. Impairment of financial instruments**

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit - impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on estimated future cash flows of financial assets have occurred.

Evidence that a financial asset is credit impaired includes the following observed data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being overdue for a period of more than 12 months from the credit term offered to the customer;
- the restructuring of loan or advance by the Company on the terms that the Company would not consider otherwise;
- it is probable that borrower will enter bankruptcy or the financial reorganization;
- the disappearance of active market for a security because of financial difficulties.

In accordance with Ind-AS 109, the Company applies expected credit loss ("ECL") model for measurement and recognition of impairment loss. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date, the credit risk has not increased significantly since its original recognition. However, if credit risk has increased significantly, lifetime ECL is used.

ECL impairment loss allowance (or reversal) is recognized in the statement of profit and loss.

When determining whether the credit risk of financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost of effort. This includes both quantitative and qualitative information and analysis based on Company's historical experience and informed credit assessment and including forward - looking information.

The Company assumes that the credit risk on financial assets has increased significantly if it is more than 90 days past due.

The Company considers financial asset to be in default when:

- a. The borrower is unlikely to pay its credit obligation to the Company in full, without recourse by the Company to action such as realising security (if any is held); or
- b. The financial asset is 360 days or more past due.

1C. Material accounting policies (continued)

f) Impairment (continued)

i. Impairment of financial instruments (continued)

*Measurement of expected credit loss*

Expected credit loss are probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flow that the Company expects to receive).

*Presentation of allowance of expected credit losses in the balance sheet*

Loss allowance for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

*Write – off*

The Gross carrying amount of financial asset is written off (either partially or full) to the extent that there is no realistic prospect of recovery. This is generally the case when Company determines that the debtor does not have asset or source of income that could generate sufficient cash flows to repay the amount subject to write-off. However, financial assets that are written-off could still be subject to enforcement activities in order to comply with Company's procedures for recovery of amounts due.

ii. Impairment of non-financial asset

The Company's non-financial assets other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less cost of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Company's corporate assets (e.g. central office building for providing support to various CGUs) do not generate independent cash inflows. To determine impairment of corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

An impairment loss in respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. An impairment loss on goodwill is not subsequently reversed.

**1C. Material accounting policies (continued)**

**g) Employee benefits**

**i. Short term employee benefits**

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Share-based payment transactions**

Share-based payment are provided to employees of the Group via the Company's Employees Stock Option Plan ("Emcure ESOS 2013").

The company accounts for the share-based payment transactions as equity settled.

The grant date fair value of equity settled share-based payment awards granted to employees of the Company is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

The Company also grants the options to the employees of its subsidiaries for which subsidiary does not have an obligation to settle the share based payment transaction. Total expense for such options issued to employees of subsidiary is recognised as investment in the nature of employee stock options issued to employees of subsidiary and corresponding increase in share options outstanding account.

**iii. Defined contribution plan**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**iv. Defined benefit plan**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation result is a potential asset for the Company, the recognised asset is limited to the present value of economic benefit available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in statement of profit and loss.

**1C. Material accounting policies (continued)**

**g) Employee benefits (continued)**

**iv. Defined benefit plan (continued)**

When the benefits of the plan are changed or when plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gain and losses on the settlement of a defined benefit plan when the settlement occurs.

**v. Other long term employee benefit**

The Company's liability in respect of other long-term employee benefits (compensated absences) is the amount of future benefit that employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the Projected Unit Credit method. Remeasurement gains or losses are recognised in profit or loss in the period in which they arise.

**h) Provisions (other than for employee benefits), Contingent liabilities and contingent assets**

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**i. Contingencies**

Provision in respect of loss contingencies relating to claims, litigations, assessments, fines, penalties, etc. are recognized when it is probable that a liability has been incurred, and the amount can be estimated reliably.

**ii. Contingent liabilities and contingent assets**

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent assets are not recognized in the standalone financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefit will arise, the asset and related income are recognized in the period in which the change occurs. A contingent asset is disclosed, where an inflow of economic benefits is probable.

**i) Revenue**

**Sale of goods**

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The Company recognises revenue pertaining to each performance obligation when it transfers control over a product to a customer, which is adjusted for expected refunds, which are estimated based on the historical data, adjusted as necessary. The transaction price is also adjusted for the effect of time value of money if the contract includes significant financing component.

**1C. Material accounting policies (continued)**

**i) Revenue (continued)**

**Sale of goods (continued)**

The consideration can be fixed or variable. Where the consideration promised in a contract includes a variable amount, the Company estimates the amount of consideration to which the Company will be entitled in exchange for transferring the promised goods or services to a customer. Variable consideration is only recognised when it is highly probable that a significant reversal will not occur.

The Company recognises refund liability where the Company receives consideration from a customer and expects to refund some or all of that consideration to the customer. The refund liability is measured at the amount of consideration received (or receivable) for which the entity does not expect to be entitled (i.e. amounts not included in the transaction price). The right to recover returned goods asset is measured at the former carrying amount of the inventory less any expected costs to recover goods. The provision on account of the expected amount of returns is included in provisions and the right to recover returned goods is included in inventory.

***Sales returns and breakage expiry***

When a customer has a right to return the product within a given period, the Company has recognised an allowance for returns. The allowance is measured equal to the value of the sales expected to return in the future period. Revenue is adjusted for the expected value of the returns and cost of sales are adjusted for the value of the corresponding goods to be returned.

The Company has an obligation to accept the goods which will expire. The Company has recognised an allowance for the returns due to expiry. The allowance is measured on the basis of historical trend of expiry against the sales occurred in the current and earlier period. Management considers the sales value for the periods which are equivalent to average general shelf life of products. Revenue is adjusted for the expected value of the returns.

***Rendering of services (other than sale of technology / know-how, rights and licenses)***

Revenue from rendering of services is recognised in statement of profit and loss by reference to percentage completion method. The Company is involved in rendering services related to its products to its customers. If the services under a single arrangement are rendered in different reporting periods, then the consideration is allocated on a relative fair value basis between the different services.

***Rendering of services - sale of technology / know-how, rights, licenses and other intangibles***

Income from sale of technology / know-how, rights and licenses is recognised in accordance with the terms of the contract with customers when the related performance obligation is completed, or when control is transferred, as applicable.

***Profit share revenues***

From time to time the Company enters into marketing arrangements with business partners for the sale of its products in certain markets. Under such arrangements, the Company sells its products to the business partners at a price agreed upon in the arrangement and is also entitled to a profit share which is over and above the agreed price. The profit share is dependent on the business partner's ultimate net sale proceeds or net profit, subject to any reductions or adjustments that are required by the terms of the arrangement. Such arrangements typically require the business partner to provide confirmation of units sold and net sales or net profit computations for the products covered under the arrangement.

Revenue amount equal to the base purchase price is recognized in these transactions upon delivery of products to the business partners. An additional amount representing the profit share component is recognized as revenue only to the extent that it is highly probable that a significant reversal will not occur.

At the end of each reporting period, the Company updates the estimated transaction price (including updating its assessment of whether an estimate of variable consideration is constrained) to represent faithfully the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period.

Profit share revenue is measured as per the percentage of profit share and computation method, specified in the agreement with business partner.

**1C. Material accounting policies (continued)**

**j) Government grants**

The Company recognises government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received. Government grants received in relation to assets are presented as a reduction to the carrying amount of the related asset. Grants related to income are deducted in reporting the related expense in the statement of profit and loss.

Export entitlements from government authorities are recognised in the statement of profit and loss when the right to receive credit as per the terms of the scheme is established in respect of the exports made by the Company, and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

**k) Leases**

**i. The Company as a lessee**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

**1C. Material accounting policies (continued)**

**k) Leases(continued)**

**ii. The Company as a lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

**l) Recognition of dividend income, interest income or expenses**

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established.

Interest income is recognised using effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of financial instrument to:

- The gross carrying amount of the financial assets; or
- The amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

**m) Income tax**

Income tax expense comprises of current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss of the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**1C. Material accounting policies (continued)**

**m) Income tax (continued)**

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax is not recognised for -

temporary differences on the initial recognition of assets or liabilities in a transaction that:

(a) is not a business combination and

(b) at the time of the transaction (i) affects neither accounting nor taxable profit or loss and (ii) does not give rise to equal taxable and de taxable differences related to investments in subsidiaries, associates and joint arrangements to the extent that the group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**n) Borrowing cost**

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

**o) Financial guarantee contracts**

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with Ind AS 37 and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Where guarantees in relation to loans or other payables of subsidiaries are provided for no compensation, the Company has made accounting policy choice of recognising fair value of such financial guarantee as finance cost.

**p) Cash and cash equivalents**

Cash and cash equivalents in the balance sheet comprises cash at bank and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

**q) Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The board of directors of the Company are identified as Chief operating decision maker. Refer note 48 for segment information.

**r) Earnings per share**

The basic earnings per share is computed by dividing the net profit / (loss) after tax attributable to the equity shareholders for the period by the weighted average number of equity shares outstanding during the reporting period.

Diluted earnings per share is computed by dividing the net profit / (loss) after tax attributable to the equity shareholders for the period by the weighted average number of equity and equivalent dilutive equity shares outstanding during the reporting period, except where the results would be anti-dilutive.

**s) Exceptional item**

In certain instances, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expenses is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financials statements.

**t) Cash flow statement**

Cash flow from operations are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. For the purpose of cash flow statement bank overdraft that are repayable on demand are considered as cash and cash equivalent as it form an integral part of the company's cash management.

**u) Research and development**

Revenue expenditure on research and development activities is recognized as expense in the period in which it is incurred.

**v) Non-current assets or disposal group held for sale**

Non-current assets are classified as held for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use. Such assets are generally measured at the lower of their carrying amount and fair value less costs to sell.

Once classified as held for sale, intangible assets and property, plant and equipment are no longer amortised or depreciated. Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

**v) Rounding of amounts**

All amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest million as per the requirement of Schedule III, unless otherwise stated.

**1D. Recent accounting pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as amended from time to time. There are no such recently issued standards or amendments to the existing standards for which the impact on the special purpose Standalone financial statements is required to be disclosed.

**1E. Changes in material accounting policies**

The Company adopted Disclosure of Accounting Policies (Amendments to Ind AS 1) from April 1, 2023. These amendments did not result in any changes in the accounting policies or the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements

**Note 38 : Capital management**

The Company's objectives when managing capital are to;

- Safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholder's and benefits for other stakeholder's, and
- Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

Generally consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. The Company's strategy is to maintain a gearing ratio less than 1.50x.

The gearing ratio at year end is as follows:

Particulars	31-Mar-24	31-Mar-23

**Note 39 : Financial risk management**

The Company is exposed to a variety of financial risks which results from the Company's operating and investing activities. The Company's risk management is carried out by central treasury department under guidance of the board of directors and the core management team of the Company, and it focuses on actively ensuring the minimal impact of Company's financial position. The Company does not have any direct significant exposure on commodities.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk in the standalone financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, other financial assets measured at amortised cost.	Ageing analysis & credit ratings	Diversification of bank deposits, credit limits and letters of credit
Liquidity risk	Borrowings and other financial liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Future commercial transactions	Cash flow forecasting Sensitivity analysis	Effective management of foreign exchange outflow and inflow.
	Recognised financial assets and liabilities not denominated in Indian rupee (Rs.)		Borrowing in foreign currency to fulfil foreign currency obligation
Market risk - interest rate	Borrowings at variable rates	Sensitivity analysis	Ongoing review of existing borrowing rates and seeking for new facilities at lower rate.

**Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and other financial assets. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of expected losses in respect of trade and other receivables.

Other financial assets that are potentially subject to credit risk consists of cash equivalents, inter corporate loans and deposits.

Further, the Company also recognises loss allowance by using a provision matrix based on historical credit loss experience wherein fixed provision rates are defined for each financial asset which is past due / not due. The Company depending on the diversity of its asset base, uses appropriate groupings if the historical credit loss experience shows significant different loss patterns for different customer segments / financial assets.

Also, the Company limits its exposure to credit risk from receivables by establishing a maximum payment period for customers.

The Company considers the recoverability from financial assets on regular intervals so that such financial assets are received within the due dates.

The Company has exposure to credit risk which is limited to carrying amount of financial assets recognised at the date of Balance sheet.

**Trade receivables**

Trade receivables are usually due within 7-180 days. Generally, and by practice significant domestic customers enjoy a credit period of approximately 7-45 days and for export customers, the credit period ranges from 30 to 180 days. The receivables are not interest bearing, which is the normal industry practice. All trade receivables are subject to credit risk exposure except for receivables from related parties. However, the Company does not identify specific concentration of credit risk with regard to trade receivables, as the amounts recognized represent a large number of receivables from various customers. Further, majority of the receivables pertains to receivables from Subsidiaries, wherein the concentration of credit risk is considered to be low. Certain receivables are also backed by letter of credit from the banks, resulting into negligible credit risk in recovery of such receivables.

The Company uses a provision matrix (simplified approach) to measure the expected credit loss of trade receivables and other financial assets measured at amortised cost.

The Company's exposure to credit risk for trade receivables, other receivables, loans and contract assets by geographic region was as follows;

	31-Mar-24	31-Mar-23
Within India	12,573.08	12,487.88
Outside India	7,000.94	7,908.22

With respect to the cash and cash equivalents and deposits with banks, the concentration of credit risk is negligible as these are kept with the reputed banks with very high credit worthiness.

Liquidity risk management implies maintaining sufficient cash and availability of funds through adequate amount of committed credit facility to meet the commitments arising out of financial liabilities. Due to the dynamic nature of the underlying business, Company maintains flexibility in funding by maintaining availability under committed credit lines. In addition, the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet future requirements, monitoring balance sheet liquidity ratios against debt covenants and maintaining debt financing plans and ensuring compliance with regulatory requirements.

The Company maintains cash and marketable securities to meet its liquidity requirements. Funding in regards to long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities.

Note 39 : Financial risk management (continued)

Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

A fundamental reform of major interest rate benchmarks is being undertaken globally, including the replacement of some interbank offered rates (IBORs) with alternative nearly risk-free rates (referred to as 'IBOR reform'). During the year ended 31 March 2023, the Company undertook amendments to its financial instruments with contractual terms indexed to IBORs such that they incorporate new benchmark rates, e.g., transition from LIBOR to SOFR. As at 31 March 2022, some of the Company's IBOR exposure was indexed to US dollar LIBOR. The alternative reference rate for US dollar LIBOR is the Secured Overnight Financing Rate (SOFR). The Company finished the process of implementing appropriate fallback clauses for all US dollar LIBOR indexed exposures in year ended 31 March 2023. These clauses would automatically switch the instrument from USD LIBOR to SOFR as per the next interest reset dates.

Foreign currency risk

The Company operates in international markets and a significant portion of its business is transacted in different currencies and consequently the group is exposed to foreign exchange risk through its sales and services and imported purchase to/from various countries.

The Company's foreign currency exposure is mainly in USD, EURO, CAD and GBP. The Company's financial liabilities in foreign currency mainly constitutes of bank loans which are repayable over the period of 5 years and trade payables. With sufficient export receivables, the Company has positive net currency asset base as compared to liabilities. Further, the Company receives foreign currency against its exports receivables on regular basis against which the Company pays its loan and import commitments. The Company has significant amount receivable in foreign currency from its subsidiaries which are generally collected on time. To mitigate the risk arising on account of foreign exchange fluctuation, management closely monitors the cash inflows based on review of expected future movement in foreign currencies.

Note 39 : Financial risk management (continued)

C) Market risk (continued)

Interest rate risk

The Company's main interest rate risk arises from borrowings with variable rates, which exposes the Company to interest rate risk. During March 31, 2024 and March 31, 2023, the Company's borrowings at variable rate were mainly denominated in INR and USD.

Interest rate risk exposure

The Company's interest rate risk arises from borrowings. Borrowings obtained at variable rates expose the Company to interest rate risk. Borrowings issued at fixed rates expose the Company to fair value interest rate risk.

As a part of Company's interest risk management policy, treasury department closely tracks the base interest rate movements on regular basis. Based on regular review, management assesses the need to enter into interest rate swaps, contracts to hedge foreign currency risk. Management reviews the future movement in base rate against different factors such as overall micro and macro economic factors, liquidity in the system, expected spending cycle. Further on regular basis management assess the possibility of entering into new facilities which would reduce the future finance cost which helps management to mitigate the risk related to interest rate movement.

All the borrowing except vehicle loan are at floating rate. Refer note no. 17.

Sensitivity

The Company's policy is to minimize interest rate cash flow risk exposures on borrowing. The Company has exposure to foreign currency as well as local currency. The local currency loans are mainly linked to bank base rate/ marginal cost of funds based lending (MCLR) whereas foreign currency loans are majorly linked with USD libor

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

\* Holding all other variables constant

The bank deposits are placed on fixed rate of interest of approximately 4.75% p.a. to 8.25% p.a (March 31, 2023: 4.00% p.a. to 8.25%). As the Interest rates do not vary unless such deposits are withdrawn and renewed, interest rate risk is considered to be low.

\* The Company has not disclosed the fair value for financial instruments such as trade receivables, cash and cash equivalents, term deposits with banks, other financial assets and financial liabilities because their carrying amounts are a reasonable approximation of fair value, due to their short-term nature. Fair value of long-term financial assets and financial liabilities carried at amortized cost is not materially different from the carrying amount.

There are no transfers between any levels during the year.

B. Measurement of fair values

Valuation techniques and significant unobservable inputs

The following table shows the valuation techniques used in measuring Level 3 fair values for financial instruments measured at fair value in the balance sheet, as well as the significant unobservable inputs used. Related valuation process are described in Note 18(e).

Investment in LLP	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Net Asset Value Method and Comparable Company Market Multiples Method (CCM): Net asset-valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. CCM method involves valuing a company using the market multiples derived from valuation of comparable companies.	Revenue multiple/ EV multiple <sup>A</sup>	Increase in revenue/ EV multiple will increase the fair value

**Other notes:**

1) A Search and Seizure Operation ('the Operation') was conducted by the Income Tax Department under section 132 of the Income-tax Act, 1961 during December 2020. Company has received orders u/s. 153A on 29th November, 2023 and has filed appeals with before CIT(A) against the said orders. Considering the disallowances, management is of the view that the matters involved are normal tax matters, and accordingly the operation will not have any significant impact on the Company's financial position and performance for the period ended March 31, 2024.

2) The Company is in receipt of various demand notices from the Indian Goods and Services Tax authorities, Excise Duty and Sales Tax demands for input tax credit disallowances and demand for additional Entry Tax arising from dispute on applicable rate are in appeals and pending decisions. The Company has responded to such demand notices and believes that the chances of any liability arising from such notices are less than probable. Accordingly, no provision is made in the financial statements as of March 31, 2024.

3) Pending resolution of the respective proceedings, it is not possible for the Company to estimate the timing of cash outflows, if any, in respect of the above as it is determinable only on receipt of judgment/decisions pending with various forums/authorities.

4) The Company is also contesting other civil claims against the Company which it has not acknowledged as debts and the management believes that its position will likely be upheld in the appellate process. At this stage in the proceedings, it is not possible to estimate the likelihood or extent of the liability, if any.

**B. Other legal matters**

**AstraZeneca Vs Emcure CS (COMM)-407/2020 (Dapagliflozin Tablet)**

On Sep 29, 2020, AstraZeneca filed a patent infringement suit for asserting two patents (IN205147 and IN235625) related to Dapagliflozin, against Emcure and sought injunctive relief. Emcure made a statement in Court that "Emcure will not be manufacturing and/or launching its product as it has lost commercial interest in Dapagliflozin". In view of this statement, Delhi High Court passed an Order closing the captioned application. On November 15, 2021, Emcure filed an application to withdraw its earlier statement and sought permission for launching Dapagliflozin due to revival of business interest. On this basis, the Delhi High Court vide its order dated Feb 22, 2022 has modified its earlier order of Oct 22, 2020, thereby allowing Emcure to manufacture and / or launch the said product subject to the undertaking provided in the Order. Both IN '147 and IN '625 patents expired on October 02, 2020 and May 15, 2023 respectively.

**Bristol Myers Squibb (BMS) Vs Emcure CS(COMM)-684/2019**

In Dec 2019, BMS sued Emcure in Delhi High Court for infringement of Indian Patent No.247381, expiring on Sep 17, 2022. On Dec 12, 2019, the court granted an ad-interim injunction in favour of BMS and against Emcure. The court directed parties to maintain status quo for launch of its product till the disposal of the application. Thereafter, Emcure filed an appeal division bench of Delhi High Court, which is FAO(OS)(COMM) 377/2019. However, the appeal was disposed off in October 2022 due to the expiry of the suit patent. The right of parties to agitate their respective rights and contentions in respect of the Application for injunction including right to claim restitution, has been kept open to be pursued before the learned Single Judge. The matter is still pending before the Delhi High Court. The Company does not expect any Court decision at least in next few years. There was no launch at risk due to injunction order till patent expiry. Emcure has launched the product only after patent expiry along with several other Generics. Hence the company does not foresee any material adverse effect from the outcome of the case.

**Boehringer Ingelheim (BI) Vs Emcure & Others - (Linagliptin)**

On June 2, 2022, Shimla Court granted injunction in favour of Boehringer Ingelheim and against Emcure/MSN/Optimus & Eris and directed parties to restrain jointly and severally from infringing BI Patent, i.e. IN'301. Emcure has filed appeal against the said Injunction order in Himachal Pradesh High Court. The patent IN'301 expired on August 18, 2023 and the said appeal was dismissed as infructuous on March 12, 2024.

**C. Drug Pricing Matters \*\***

On December 2, 2015, the Company's erstwhile subsidiary Heritage Pharmaceuticals Inc (Heritage) learned that the United States Department of Justice, Antitrust Division ("DOJ") initiated an investigation into Heritage and its employees regarding alleged violations of U.S. antitrust laws, which prohibit contracting or conspiring to restrain, trade or commerce. In support of that investigation, the DOJ executed relevant search warrants at Heritage's premises and at the residence of one of Heritage's national accounts managers. In addition, the DOJ served grand jury subpoenas on Heritage, and several current and former employees, which sought a variety of materials and data relevant to Heritage's generic drug business. Heritage has fully cooperated with the DOJ and responded to its subpoenas.

On May 7, 2018, Heritage received a civil investigative demand from the United States Department of Justice, Civil Division ("DOJ Civil") seeking documents and information in connection with a simultaneous investigation under the False Claims Act.

On May 31, 2019, Heritage announced that it entered into a deferred prosecution agreement ("DPA") with the DOJ relating to a one-count Information for a conspiracy involving glyburide. In conjunction with the DPA, Heritage agreed to pay a USD 225,000 fine. In addition, Heritage also announced that it separately agreed to a settlement with DOJ Civil to resolve potential civil liability under the False Claims Act in connection with the same antitrust conduct. Under the terms of the settlement with DOJ Civil, Heritage agreed to pay USD 7.1 million. These resolutions fully resolve Heritage's potential exposure in connection with the DOJ's ongoing investigation into the generics pharmaceutical industry.

In addition to the above, on May 30, 2019, Emcure Pharmaceuticals Limited ("Emcure") (erstwhile Holding company of Heritage) also entered into a cooperation and non-prosecution agreement ("NPA") with DOJ under which the Emcure, and its current officers, directors, and employees received non-prosecution protection in exchange for its agreement to provide cooperation into the DOJ's investigation. This resolutions fully resolve Emcure's potential exposure in connection with the DOJ's ongoing investigation into the generics pharmaceutical industry.

**D. Attorneys General Litigation \*\***

On December 21, 2015, the Company's erstwhile subsidiary Heritage Pharmaceuticals Inc ("Heritage") received a subpoena and interrogatories from the Connecticut Office of the Attorney General seeking information relating to the marketing, pricing and sale of certain of Heritage's generic products (including generic doxycycline) and communications with competitors about such products. On December 14, 2016, attorneys general of twenty states filed a complaint in the United States District Court for the District of Connecticut against several generic pharmaceutical drug manufacturers and individuals, including Heritage, alleging anticompetitive conduct with respect to, among other things, doxycycline hyclate DR. On June 18, 2018, attorneys general of forty-five states, the District of Columbia and the Commonwealth of Puerto Rico filed an amended consolidated complaint against various drug manufacturers, including Heritage, Emcure and Emcure's Chief Executive Officer, Satish Mehta based on the same alleged conduct. The consolidated complaint (the "State AG Complaint") was subsequently amended to add certain attorneys general alleging violations of federal and state antitrust laws, as well as violations of various states' consumer protection laws.

The consolidated State AG Complaint alleges that Heritage engaged in anticompetitive conduct with respect to fifteen different drugs: acetazolamide; doxycycline monohydrate, doxycycline hyclate DR, fosinopril HCTZ, glipizide metformin, glyburide, glyburide metformin, leflunomide, meprobamate, nimodipine, nystatin, paromomycin, theophylline, verapamil, and zoledronic acid. The consolidated State AG Complaint also includes claims asserted by attorneys general of thirty-seven states and the Commonwealth of Puerto Rico against Heritage, Emcure, and certain individuals, including Emcure's Chief Executive Officer, Satish Mehta, with respect to doxycycline hyclate DR. The allegations in the State AG Complaint are similar to those in the previously filed civil complaints (discussed below).

The consolidated State AG Complaint was transferred and consolidated into the ongoing multidistrict litigation captioned In re Generic Pharmaceuticals Pricing Antitrust Litigation, Case No. 16 MD 2724, which is currently pending in the United States District Court, Eastern District of Pennsylvania (the "Antitrust MDL").

On February 28, 2023, the Court in the Antitrust MDL denied almost all dispositive motions filed by the companies - and some of their former executives - to dismiss the price-fixing allegations.

Emcure, Heritage and Satish Ramanlal Mehta have also reached a settlement agreement in principle with the Plaintiff States (the "States Settlement Agreement") which is being considered for approval by the Plaintiff States. The finality of the States Settlement Agreement is subject to approval by each individual Plaintiff State. To date, each individual Plaintiff State has now formally approved the States Settlement Agreement, with the limited exception of one remaining state, where approval still remains pending i.e., Louisiana.

**E. Civil Litigation \*\***

Beginning in 2016, Heritage, along with other manufacturers, has been named as a defendant in lawsuits generally alleging anticompetitive conduct with respect to generic drugs. The lawsuits have been filed by putative classes of direct purchasers (the "Direct Purchaser Plaintiffs"), 2 putative classes of indirect purchasers (the "Endpayer Plaintiffs" and the "Indirect Reseller Plaintiffs") and by individual opt out plaintiff purchasers. They allege harm under federal and state antitrust laws, state consumer protection laws and unjust enrichment claims. Some of the lawsuits also name Emcure and Emcure's Chief Executive Officer, Satish Mehta, as defendants and include allegations against them with respect to doxycycline hyclate DR. The lawsuits have been consolidated in the Antitrust MDL (referenced above).

A number of other lawsuits have been separately filed against Heritage, and various other manufacturers, by individual plaintiffs who have elected to opt-out of the putative classes. These complaints also generally allege anticompetitive conduct with respect to generic drugs which allegedly caused harm under federal and state antitrust laws, state consumer protection laws and unjust enrichment claims. These lawsuits have also been consolidated in the pending Antitrust MDL (referenced above).

Emcure, Heritage and Satish Ramanlal Mehta have entered into settlement agreements including (i) a settlement agreement dated October 31, 2023 for the settlement of all claims filed against Emcure and Heritage by all of the Direct Purchaser Plaintiffs in the Civil Cases (the "DPP Settlement Agreement"), and (ii) a settlement agreement dated November 28, 2023 for the settlement of all claims filed against Emcure and Heritage by all of the End-Payer Plaintiffs in the Civil Cases (the "EPP Settlement Agreement"). Settlements have yet to be negotiated with the Indirect Reseller Plaintiffs and the individual opt-out plaintiff purchasers in the Civil Cases, which comprise individual plaintiff purchasers that are not part of the classes of Direct Purchaser Plaintiffs and the End-Payer Plaintiffs. Both the DPP Settlement Agreement and the EPP Settlement Agreement must be approved by the Court following the filing of motions seeking such approval by the Direct Purchaser Plaintiffs and the End-Payer Plaintiffs, respectively. On January 23, 2024, the Direct Purchaser Plaintiffs filed a motion for approval of the DPP Settlement Agreement, and on February 13, 2024, the Court granted preliminary approval to the DPP Settlement Agreement. The Court also scheduled a Final Approval Hearing for the DPP Settlement Agreement for September 23, 2024. We are currently waiting for the End-Payer Plaintiffs to file a similar motion for approval of the EPP Settlement Agreement as the next step.

\*\* Company (the Company) has entered into an indemnity agreement with Avet Lifesciences Limited ("Avet Life"), whereby from the effective date of the scheme of arrangement, Avet Life has agreed to indemnify, defend and hold harmless the Company and directors, officers, employees, agent, representatives and shareholders of the Company (the "Indemnified Parties"), as applicable, from and against any and all the losses suffered or incurred by the Indemnified Parties, which arises out of, or results from or in connection with any claim and any loss suffered by the Indemnified Parties on account of breach by Avet Life or its subsidiaries and affiliates of any covenants, undertakings and/or obligations of the Indemnification Deed, and in relation to losses arising out of certain identified claims including claims and obligations of the Company under pending litigations in the U.S. Pursuant to the Indemnification Deed, Avet Life will assume all losses or liability, and the payment obligation (if any), that would be owed by the Company in either the State AG Complaint or the Civil Cases under a negotiated settlement agreement, or an adverse verdict rendered by a jury against our Company or our officers, directors and employees. As a result of such indemnity agreement, our Company would be liable for any potential settlement obligation, or adverse jury verdict for the amount directed specifically against it, only in the event that Avet Life is unable to fully satisfy such an obligation or verdict.

**J. General**

From time to time, the Company is subject to various disputes, governmental and/or regulatory inquiries or investigations, and litigations, some of which result in losses, damages, fines and charges against the Company. While the Company intends to vigorously defend its position in the claims asserted against it, the ultimate resolution of a matter is often complex, time consuming, and difficult to predict. Therefore, except as described below, the Company does not currently have a reasonable basis to estimate the loss, or range of loss, that is reasonably possible with respect to matters disclosed in this note.

The Company records a provision in its standalone financial statements to the extent that it concludes that a contingent liability is probable and the amount can be estimated and has noted those contingencies below. The Company's assessments involve complex judgments about future events and often rely heavily on estimates and assumptions. The Company also incurs significant legal fees and related expenses in the course of defending its positions even if the facts and circumstances of a particular litigation do not give rise to a provision in the standalone financial statements.

Notes:

(1) Loans and Guarantees are given for the general business purposes of related parties.

(2) Unsecured loans given to subsidiaries and interest thereon are measured at amortised cost. The difference between the carrying amount and actual amount is accounted as net gain / loss under other income / finance cost, as the case may be. Below are the details of actual amount of loan and interest receivable from subsidiaries:

Particulars	Tenure of loan and interest	Rate of Interest	Loans		Interest accrued on loans

Note 44 : Assets and liabilities relating to employee benefits (continued)

d) The net liability disclosed above relating to funded plans are as follows:

Particulars	Rs. in million	
	As at 31-Mar-24	As at 31-Mar-23
Present value of obligation	697.71	634.70
Fair value of plan assets	(589.54)	(576.28)
Deficit of funded plan	108.17	58.42

The Company has no legal obligation to settle the deficit in the funded plans with an immediate contribution or additional one off contributions. The Company intends to continue to contribute the defined benefit plans as per the demand from LIC of India.

Principal actuarial assumptions as at the reporting date:

Particulars	Rs. in million	
	As at 31-Mar-24	As at 31-Mar-23
a) Discount rate	7.20%	7.30%
b) Expected rate of return on plan assets	7.30%	6.10%
c) Salary escalation rate	9.00%	9.00%
d) Withdrawal rate

Factory staff	20.00%	20.00%
e) Mortality table	IAIM(2012-14) ult	IAIM(2012-14) ult

The estimates of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors.

Normal retirement age is 58 years.

e) Sensitivity analysis :

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligations by the amounts shown below.

Change in assumption	Rs. in million			
	Impact on defined benefit obligation			
	Increase in assumption	Decrease in		
	31-Mar-24	31-Mar-23	31-Mar-24	31-Mar-23
Discount rate by 1%	(27.04)	(24.84)	29.31	26.94
Salary escalation rate by 1%	22.00	20.79	(20.71)	(19.09)
Withdrawal rate by 1%	(2.66)	(2.34)	2.90	2.56

Assumptions regarding future mortality for gratuity benefit is set based on actuarial advice in accordance with published statistics and experience in the domicile country of the company.

f) Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed

- Asset volatility : The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. All assets are maintained with fund managed by LIC of India.
- Changes in bond yields: A decrease in bond yields will increase plan liabilities.
- Future salary escalation and inflation risk : Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the company is successfully able to neutralize valuation swings caused by interest rate movements. Hence company is encouraged to adopt asset-liability management.

The Company's assets are maintained in a trust fund managed by public sector insurance company via, LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years.

g) Defined benefit liability and employer contributions

The Company has agreed that it will aim to eliminate the deficit in gratuity plan over the years. Funding levels are assessed by LIC on annual basis and the Company makes contribution as per the instructions received from LIC. The Company compares the expected contribution to the plan as provided by actuary with the instruction from LIC and assesses whether any additional contribution may be required. The Company considers the future expected contribution will not be significantly increased as compared to actual contribution.

Expected contributions to post-employment benefit plans for next year is Rs. 108.20 million (March 31, 2023 - Rs. 58.40 million).

The weighted average duration of the defined benefit obligation is 4.86 years (March 31, 2023: 4.9 years). The following benefits payments are expected to be paid:

	Less than 1 year	between 1-2 years	between 2-5 years	over 5 years	Rs. in million Total

The eligible employees, including directors, are determined by the Remuneration Committee from time to time. These options will vest over period of 3 to 5 years from the grant date and are subject to the condition of continued service of the employees.

Once vested the option can be exercised within 5 years from date of Initial Public Offer (IPO). The exercise price of the options is equal to fair market value of the shares as determined by an independent valuer as at grant dates. If IPO does not take place or shares are not listed within 2 years from the date of grant, Remuneration committee at its sole discretion, subject to prior approval of the Company's shareholders' can settle the vested options in cash or allow exercise of option before listing at a price arrived at by an independent valuer. Post approval of shareholders, 300,000 options have exercised and 210,000 options have been settled in cash during the year ended March 31, 2024.

Options granted under this scheme carry no dividend or voting rights. When exercised, one option is convertible into one equity share.
