

# Emcure inaugurates R&D centre in A'bad

**Ahmedabad:** Emcure Pharmaceuticals inaugurated its formulation research and development centre in Ahmedabad on Thursday. It is strategically designed to enable breakthroughs in complex drug delivery systems, such as sustained-release formulations, liposomal injections and advanced dermal therapies. The facility was inaugurated by health minister Rushikesh Patel. "We aim to accelerate pharmaceutical research in areas such as gynaecology, cardiology, oncology, nephrology, pain management and vitamins. A team of some 350 professionals will be deployed at the centre," said Satish Mehta, CEO, Emcure. **TNN**
